**Re: Resident Notification  
Improvements to Park Place Avenue  
Borough of Bradley Beach, Monmouth County, New Jersey  
Our File No. HBB00602.01**

Dear Resident:

Please be advised that the "Improvements to Park Place Avenue" project is being designed at this time with construction anticipated to begin in 2023. The project generally consists of the reconstruction of Park Place Avenue with concrete, drainage, sanitary sewer, and other associated improvements.

As you may be aware, only emergency utility openings will be permitted after the application of the top course pavement. Accordingly, it is advised that if you plan to connect into any existing utility such as gas, water, or sanitary sewer, or need to replace an existing connection to a utility, you must do so immediately. After the resurfacing of these roads, only emergency utility repairs will be allowed for a period of five years. Please contact me at this office immediately if you plan on making any utility connections.

Our office will have a representative on-site during construction to monitor the construction activities. We will attempt to coordinate any work to be done in your area in order to minimize possible inconveniences. Access will be maintained for residents at all times.

On behalf of the Mayor and Borough Council, we would like to thank you for your anticipated cooperation in this matter and apologize in advance for any inconveniences that may be caused during construction.

Should you have any questions or require additional information, please do not hesitate to contact this office.

Very truly yours,

**CME Associates**
