WE KEEP LIFE FLOWING®

BE SAFE. SLOW DOWN IN WORK ZONES.

Your safety, as well as the safety of your neighbors and our workers, is important to us!

We work hard to keep our job sites safe, and we appreciate your effort to slow down and use caution around the construction site.

For emergencies, we're available 24/7.

3-2022

WE'RE INVESTING \$450,000 IN BRADLEY BEACH

MAIN REPLACEMENT PROJECT

New Jersey American Water is preparing to install approximately 1,000 feet of new 8-inch ductile iron main along **Beach Avenue** (from Newark Avenue to McCabe Avenue). The project also includes installing six utility-owned service lines along the pipeline route. The project represents a critical investment for the company in support of our commitment to provide customers with safe, reliable water service.

PROJECT START/END AND WORK HOURS

Weather permitting, our local, qualified contractor, Montana Construction, Inc. is scheduled to begin work on or about March 14 and expects to be completed within approximately one month. Work hours will be from 7:30 a.m. to 5 p.m. Monday through Friday. Work outside of these hours is not expected unless required to maintain project schedule. Final street restorations will be completed in fall of 2022.

PROJECT OVERVIEW AND WHAT YOU CAN EXPECT

- **Install, disinfect, test and place new main into service.** While we interconnect the new main to the distribution system, customers may experience a temporary service interruption. Customers may also experience a slight discoloration of water. If this happens, run the water until it is clear.
- **Perform final paving and any restoration of concrete, driveway, grass and landscaping.**

Our crews will work as quickly as possible to shorten the length of these temporary inconveniences. We appreciate your patience and understanding during this project.

TRAFFIC FLOW AND ACCESSIBILITY

For the public's and workers' safety, traffic restrictions and/or alternating traffic patterns are likely to occur during work hours. New Jersey American Water's inspector, along with the contractor's personnel, will provide a minimum of 24 hour's notice prior to any parking and/or driveway use restrictions. All emergency vehicles and local traffic will be allowed access during construction.

NOISE

As with any construction project, some noise will be unavoidable with this project. We apologize for any inconvenience, and appreciate your understanding and cooperation.

INFRASTRUCTURE. ONE MORE WAY WE KEEP LIFE FLOWING.
